VOYAGER BRONZE SPECIAL

DESCRIPTION:

Voyager Bronze special is blended with the most advanced additive package, which enables it to give exceptional performance under most severe operating conditions. It provides effective protection against oxidation, wear and corrosion under high temperature operations and remains a stable multi-grade. Voyager Bronze special provides high resistance to sludge, low volatility characteristics and low oil consumption.

APPLICATIONS

Voyager Bronze special is recommended for Gasoline and Diesel engine passenger cars, vans, light trucks of every make and type, turbo charged or naturally aspirated. Voyager Bronze special is suitable and exceeds the performance requirements of most European, Japanese and American car manufacturers.

BENEFITS:

- Excellent engine protection.
- Eliminates seasonal oil changes.
- Maintains a high order of engine cleanliness.
- Excellent control of deposit formation.
- Excellent oxidation stability at high temperature.
- Excellent shear stability, maintains viscosity grade.
- Protects against rust, wear and sludge formation.
- Less oil top-up.

PERFORMANCE LEVEL

APISL/CF

Meets the quality requirements of major Gasoline engine manufacturers in USA, Europe and Japan.
